DETAILED ACTION

1. This office action is responsive to the amendment filed on November 8, 2004. Examiner acknowledges the cancellation of claims 8, 14-15, and 17-20 and the amendment of claims 1, 9, 11, and 16. Claims 1-7, 9-13 and 16 are therefore pending in this application. Examiner acknowledges Figs. 5 and 7 as originally submitted. The figures have been rescanned and there appears to be no error present.

Allowable Subject Matter

2. Claims 1-7, 9-13, and 16 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:
4. Regarding claims 1-7, 9 and 10, no prior art of record teach or fairly suggest a method for determining vulnerable plaque where a guide member is inserted into the cardiovascular lumen for sensing temperature from a first and second position along the guide member and the vulnerable plaque is determined based on the temperatures from these two positions (the second position being proximal to the first position), and where bodily fluid flowing in the cardiovascular lumen is cooled to increase the temperature difference between the first position and the second position.
5. Regarding claims 11-13 and 16, no prior art of record teach or fairly suggest a system for determining vulnerable plaque where the system includes means for inserting a guide member into the cardiovascular lumen, the guide member having means for sensing temperature from a first and second position (the second position being proximal to the first position), means for

determining the vulnerable plaque based on the temperatures from these two positions, means for compensating the sensed temperatures with flow measurements and means for determining the vulnerable plaque based on the difference between the compensated temperatures from the two positions, and means for cooling bodily fluid flowing in the cardiovascular lumen to increase the temperature difference between the first position and the second position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
